This Notice of Privacy Practices describes how Shodair may use and disclose your protected health information to carry out treatment, payment, or health care operations and for other purposes permitted or required by law. It also describes your rights to access and control your protected health information. Protected health information is information about you including demographic information that may identify you and that relates to your past, present, or future physical or mental health and related health care services.

Shodair Hospital participates in an electronic Health Information Exchange (HIE) through Big Sky Care Connect (BSCC) as a means to improve the quality of your health and healthcare experience. HIE provides us with a way to securely and efficiently share patients' clinical information electronically with other physicians and healthcare providers that participate in the HIE network. Using HIE helps your healthcare providers to more effectively share information and provide you with better care. The HIE also enables emergency medical personnel and other providers who are treating you to have immediate access to your medical data that may be critical for your care. Making your health information available to your healthcare providers through the HIE can also help reduce your costs in a variety of ways, such as eliminating unnecessary duplication of tests and procedures.

Patients can opt-out of participation in the HIE at any time through either of the methods described below. Patients can also opt back in at any time using the same methods. Shodair Hospital will not use your decision, whatever it may be, as a condition of receiving treatment.

Opting out means your data will still be shared with BSCC, but your health data will not be viewable or accessible in the BSCC system. Opting out of the HIE is an "all-or-nothing" choice, because BSCC cannot block access to some types of medical information while at the same time permit access to other medical information.

Opt-Out Methods:

- 1) Patient to complete the opt-out form available on BSCC's website at <https://www.mtbcc.org/bcc-patients> and mail it to BSCC opt-out Team @ 2021 11th Avenue, Suite 11 Helena, MT 59601
- 2) Complete opt-out Form online and submit it directly on BSCC's website: <https://www.mtbcc.org/opt-out>.

Shodair Hospital reserves the right to change this notice. We reserve the right to make the revised or changed notice effective for protected health information we already have about you as well as any information we receive in the future. We will place copy of the current notice in the hospital. The notice will contain the effective date. In addition, each time you register at or are admitted to the hospital for treatment or health care services, we will offer you a copy of the current notice in effect. Shodair Hospital may also revise its policy and procedures regarding the use and disclosure of protected health information at any time, which could subsequently result in additional uses or disclosures that would not require an individual's authorization.

USES AND DISCLOSURES FOR TREATMENT, PAYMENT, AND HEALTH CARE OPERATIONS

Shodair Hospital may use and disclose your protected health information without authorization for certain purposes, such as treatment, payment and health care operations. The following examples of these uses and disclosures are not meant to be exhaustive but are included to give you an idea of when your protected health information could be disclosed.

Shodair Hospital will use your health information for treatment. For example, information obtained by a nurse, physician, or other member of your health care team will be recorded in your record and used to determine the course of your treatment. Your physician will document in your record his or her expectations of the members of your health care team. Members of your health care team will then record the actions they took and their observations. In that way, the physician will know how you are responding to treatment. Shodair Hospital will also provide your physician or subsequent healthcare provider with copies of various reports that will assist him or her in treating you once you are discharged.

Shodair Hospital will use your health information for payment. For example, Shodair will send a bill to you and/or your insurance company. The information on or accompanying the bill may include information that identifies you, as well as your diagnosis, procedures, and supplies used. Information can be disclosed to a plan sponsor for plan administration. Genetic information cannot be used to decide whether coverage can be given or at what price.

Shodair Hospital will use your health information for regular health care operations. For example, members of the medical staff or the departments that provided your care may use information in your health record to assess the care and outcomes in your case and others like it. This information will then be used in an effort to continually improve the quality and effectiveness of the health care and service we provide.

Shodair Hospital will use your health information for treatment, payment and health operations of other covered entities. For example, we may release information to your physician so that he or she may send a bill to you and/or your insurance company. In addition, Shodair may provide your physician or referring hospital with information required to perform quality improvement, peer review, compliance review and medical education.
